

Calithera Reports Financial Results for the Fiscal Quarter Ended September 30, 2014

November 14, 2014

SOUTH SAN FRANCISCO, Calif., Nov. 14, 2014 (GLOBE NEWSWIRE) -- Calithera Biosciences, Inc. (Nasdaq:CALA), a clinical-stage pharmaceutical company focused on discovering and developing novel small molecule drugs directed against tumor metabolism and tumor immunology targets for the treatment of cancer, announced today its financial results for the fiscal quarter ended September 30, 2014.

"Calithera has made significant accomplishments, both financially and operationally, through the third quarter of this year," said Susan Molineaux, PhD, President and Chief Executive Officer. "With the successful completion of our initial public offering following the end of the third quarter, we have strengthened our balance sheet and we continue to execute on our development plan to meet our milestones in 2015."

Selected Third Quarter 2014 Financial Results

Cash and cash equivalents totaled \$34.9 million at September 30, 2014. In October 2014, Calithera raised net proceeds of approximately \$71.7 million in its initial public offering.

Research and development expenses for the three months ended September 30, 2014 were \$3.9 million, compared to \$2.7 million in the same period in 2013. The increase in research and development expenses from 2013 to 2014 was primarily attributed to higher expenses associated with the advancement of CB-839, the Company's first-in-class glutaminase inhibitor, into Phase 1 clinical trials in February 2014 and investments in the Company's arginase inhibitors program.

General and administrative expenses for the three months ended September 30, 2014 were \$1.3 million, compared to \$0.6 million in the same period in 2013. The increase from 2013 to 2014 was primarily due to higher employment related expenses, including stock based compensation expense, and professional service fees relating to the Company's preparations to operate as a publicly traded company.

About Calithera

Calithera Biosciences, Inc. is a clinical-stage pharmaceutical company focused on discovering and developing novel small molecule drugs directed against tumor metabolism and tumor immunology targets for the treatment of cancer. Calithera's lead product candidate, CB-839, is currently being evaluated in three Phase 1 clinical trials in solid and hematological cancers. Calithera is headquartered in South San Francisco.
